

251-17 TK/B

**Villavent , type 251-17 TK/B** is a cookerhood with curved front, elegant design and good visibility light from 11 W compact light tube. The cookerhood is functional with deep side panels and shaded tempered glass. This makes the cookerhood efficient, even at low airflows (75% at 140 m³/h). The cookerhood is equipped with transformer for 3-step control of the extract fan and switch for timer control of damper, 5 to 60 minutes.

Damper and fan speed is controlled from control panel on the cookerhood front.

This model, for installation under kitchen cupboard, is available in white or stainless steel.

- Max. fan power: 300 W
- Light: 11 W compact light tube, socket G23
- Voltage: 230 V ~ 50 Hz, jordat
- Control: 3-step (transformer: 60/80/100, 130/145 and 230 V).  
80, 100 or 145 V are possible alternatives (re-wiring on transformer)
- Duct connection: Ø125 mm
- Width: 598 mm (adaptable in 600mm kitchen cupboard).
