

- Will remove even the most dangerous dust particles from your home
- Simple and flexible installation
- Can also be mounted in laundry room, garage or similar
- Quiet running and efficient
- Bag filter - hygienic disposal

The Villavent central vacuum unit S-1400 is a flexible model for installation in dwellings and smaller commercial buildings. A large dust bag/filter allows for hygienic disposal. The filter system will also protect the motor and avoids spreading of dust particles outside the building. Install the vacuum unit in a utility room, i.e. laundry room, store room or similar, and lead the exhaust air to outside. Connection to mains supply via 1,4 m cable with earthed plug. Choose side for connection of pipe system and exhaust pipe.

S-1400

Voltage/frequency	V/Hz	230 / 50
Phases	~	1
Motor	W	1400
Motor cooling		Bypass
Control current	V	24
Voltage	A	6,3
Air Watts	W	350
Vacuum (max.)	mmVs	2500
Airflow	l/s	50
Dust separation/volume	bag/l	30
Fuse	A	10 (slow)
Net weight	kg	~14
